### **ABOUT IBEX**

IBEX manufactures and markets a series of proprietary enzymes (heparinases and chondroitinases) for use in pharmaceutical research by our customers, as well Heparinase I, which is used in many leading hemostasis monitoring devices.

IBEX also manufactures and markets a series of arthritis assays which are widely used in pharmaceutical research by our customers. These assays are based on the discovery and increasing role of a number of specific molecular biomarkers associated with collagen synthesis and degradation.
